**Enhancing Your Degree**

**Bloomington Volunteer Network**
Search for opportunities to volunteer in the Bloomington community.

**Center of Excellence for Women in Technology**
CEWiT’s website provides lists of courses, workshops, majors, and minors that can be taken in a variety of fields to add technology skills. Men are very welcome, too.

**Office of Student Life and Learning**
Get involved through student organizations, leadership programs, service and volunteer work, and more. Learn through action.

**Foreign Language Study**
IU offers courses in 70+ foreign languages, four flagship language programs, and a summer language institute.

**Overseas Study**
Going abroad is one of the best things that a person can do to truly learn and be prepared for any professional setting.

**Recreational Sports & Fitness Programs**
Stay fit and get involved through the sports and fitness programs at the two on-campus Recreational Sports facilities.

**Service-Learning Courses**
You will provide service in your community that is directly connected to your academic coursework, and the community provides an educational experience for you.

**Student Involvement Fair**
Wednesday, Sept. 2, 11 a.m.-2:30 p.m. in Dunn Meadow. Learn about the wealth of opportunities to become involved both on and off-campus with 750+ student organizations at IU and many volunteer opportunities with local non-profits.

**Undergraduate Research and Creative Activity**
Work with a faculty member on a scholarly or creative project, and possibly publish your work in the IU Journal of Undergraduate Research.

**Arts, Music, Culture, Athletic and Other Community Events**
Take advantage of the many events that are on campus: visiting speakers, concerts, movies, games, and many more.

---

**Seeking Support**

**Assistive Technology and Accessibility Centers**
ATAC provides access to specialized assistive technologies that help with reading, writing, studying, and information access.

**Disability Services for Students**
Do you need accommodations to perform at your best in an academic setting? If so, DSS can help.

**Financial Literacy**
Learn to make informed financial decisions.

**Student Central**
408 N. Union St. One place, three services: Registrar, Financial Aid, Bursar.

**IU Health Center**
Become familiar with the health services on campus so, when you get sick, you will know where to go for care. The IU Health Center includes a medical clinic, counseling, pharmacy and many other services.

**Office of First Year Experience**
FYE provides orientation programs during the summer and throughout your first year to help you have a successful year.

**Office of International Services**
OIS provides specialized advisors to assist international students with admissions, visas, financial aid, adapting to study in the U.S. and at IU, and many other services.

**Office of Mentoring Services & Leadership Development**
This office provides a peer mentoring service, an annual Diversity Leadership conference, and a variety of professional development programs.

**University Information Technology Services**
Your very own tech support on campus! Technology repair, technology training, issues with email, free software downloads, help with using your course websites in Oncourse and Canvas, and much more.
Setting Academic Goals

College of Arts & Sciences Academic Advising
College Advisors know the degree requirements and intricacies of each major.

Attend the College Welcome and Majors Expo on Thursday, August 20th from 3 to 4 pm in Alumni Hall and Solarium, IMU.
Explore the options, confirm your major choice and begin a plan for enhancing your degree with minors and certificates.

Health Professions and Prelaw Center
If you are interested in a health or law profession, HPPLC will work closely with you throughout your undergraduate years to help you become a well-prepared, competitive applicant to professional programs.

IU Bloomington General Education and College of Arts & Sciences Education (CASE)
Use your general education and CASE courses to add breadth to your degree and gain valuable, transferable career skills.

Recommended First Courses
For each major, find out the first courses to take in order to make progress in the major and explore if it is the right fit for you.

Student Center
Sign in to One.iu.edu and search for Student Center. Access your transcript, view transfer and test credits, register for classes, view your class schedule, access iGPS tools, check for holds on your record, and much more.

iGPS Degree Planning Tools
Work with your academic advisor this year to learn how to use these tools to map out your four years.

Advisement Report
Shows how the courses you have taken or plan to take will count toward a degree in your intended major or other majors of interest.

Registration and Drop/Add
The Office of the Registrar can help you learn to register for classes and adjust your schedule if necessary.

College of Arts and Sciences Bulletin
The official source for degree requirements and policies for the College and your major.

College Recorder’s Office
The Recorder’s office keeps your academic records. Any change in your academic status must be recorded with this office.

Student Academic Center
The SAC supports your goal to be a successful student through courses, workshops, podcasts, supplemental instruction, and individualized academic assessment and assistance.

Academic Support Centers
Conveniently located in Brescian, Forest, and Teter Residence Halls, the ASCs provide free tutoring for math, writing, business, science, and more.

Writing Tutorial Services
The WTS tutors can help you with brainstorming, outlining, grammar, content, formatting, and revising your writing assignments.

Libraries: Research Consultation
Consult with a librarian at Wells Library for assistance with developing a research topic and finding sources for a paper or project for your class.

Canvas and Oncourse
Most of your professors will use one of these two course management systems to post syllabi, assignments, resources, and more.

Advanced Placement and International Baccalaureate Exam Credit
Find out how AP and IB credit applies toward your degree.

Notes:

Write down 2-3 academic and career resources you want to use when you arrive on campus.

Setting Career Goals

Arts & Sciences Career Services Career Advising
Meet with an advisor to discuss any career-related topic by scheduling an appointment via your Career Link account or drop by the Career Development Center (265 N. Jordan Ave.) Monday through Friday, 12:30 to 4 p.m.

ASCS Q296: College to Career II: Navigate Your Arts & Sciences Experience
2 Credits | 16 Weeks | Open to all sophomores and juniors with majors, minors and certificates in the School of Global & International Studies (SGIS). In this course you will explore post-graduation career opportunities through the lens of marketable skills and develop a plan for academic and career success.

ASCS Q299: College to Career III: Market Yourself for the Job & Internship Search
2 Credits | 8 Weeks | Open to all sophomores, juniors and seniors. In this course you will learn successful job search strategies including building a professional network, developing a strong resume and cover letter and practice articulating your skills through mock interviewing.

Learn About Yourself Webpage
Visit the CDC’s website to learn about VIPs, the four dimensions of self that should guide your career decisions: your values, interests, personality, and skills.

Career Development Process
Use this guide to begin your career journey with self-assessment; research careers via the web, informational interviews, and job shadowing; then try out careers through internships, jobs, and volunteering.

Career Guides
Each IU Career Guide offers the A-Zs of the industry’s preferred educational backgrounds, as well as employment opportunities and insider tips, and much more. You can search the guides by major or career interest.

Career Link
Your Career Link account gives you access to thousands of internship and full-time job postings. Create your Career Link account as soon as you arrive at IU.

Fall Part-time Jobs Fair
Friday, August 21 from 10:30 AM - 3:30 PM. Meet local employers and gain resume-building experience (work study and non-work study opportunities).

Fall Full-time Jobs & Internship Fair
Thursday, September 17 from 4:00-7:00 PM. Meet national employers from a variety of industries to learn about job opportunities.

ASCS Resource Library
Start your career research by using our online library of helpful resources, but make sure you meet with an advisor for one-on-one career advice and additional support during your first year at IU.

O*net
The O*NET program is the nation’s primary source of occupational information containing details on hundreds of standardized and occupation-specific descriptors.

Career Success Roadmap
Use this 4-year checklist to keep track of your career development progress throughout your college experience to ensure you’ve met career development milestones along the way.
